

HAZARD	Likelihood of Risk	Severity of Risk	Assessed Risk Level	Measures to Minimise Risk
I – Work Parties				
Public safety	Low	Med	Low	The field must be closed to shooting The flags must be put out to indicate that the field is in use.
Personal Safety	Low	High	Low	It is the responsibility of all members who attend the work parties to ensure they are using safe practice and are capable of doing the tasks required. PPE is available if required but best if you provide you own. Members who bring their own tools to use on a work party are responsible for their safe use.
Line Marking – White emulsion paint & weed killer	Low	High	Low	Line marking to be done only by a responsible adult and someone who has been shown how to perform the task correctly. Use Personal Protective Equipment (PPE): Wear the PPE indicated on the product label (e.g., gloves, goggles, protective clothing). Weedkiller to be added to the diluted emulsion paint in a container marked as containing “Weedkiller” using the recommended dilution rate as stated on the weedkiller product. After use all equipment used to mark the lines should be cleaned and stored safely in the container.
Working off Ladders & Heavy Lifting	Low	High	Low	Any work to be carried out using a ladder or heavy lifting must be risk assessed before the work commences. Only adults to work off ladders or to carry out any work which is not ground based or to do any work which requires heavy lifting
Use of Power Tools	Low	High	Low	Power tools, either mains or battery, are to be used by responsible adults. Juniors may use power tools but they must be under the direct supervision of their parent or guardian whilst doing so.
General Hand Tools	Low	High	Low	Hand tools are to be used by responsible adults. Juniors may use hand tools but they must be under the direct supervision of their parent or guardian whilst doing so

I – continued				
Generator	Low	High	Low	Generator is only to be operated by responsible adults. The generator is very heavy to move and requires at least two strong adults to move it. Do not operate the generator inside the container. Operate the generator only in accordance with the instructions with the generator and follow recommended safety procedures at all times. Ensure the generator has sufficient fuel in the tank before work commences. If the generator requires refuelling to complete the work, wait for it to cool down before it is re-filled or there could be a risk of fire and/or explosion.
Mowing & Strimming	Med	High	Low	Only to be performed by a responsible adult after risk assessing that the area they are working in is safe for them and others in the work party.
